

OzFair - MVP Frist Draft

Main user flows/goals:

- 1.) **Currency Exchange//Split bills/expanses between friends/groups**
- 2.) **Overview of your OzFair Account (spendings, debts and outstanding payments + transactions list)**

1. Currency Exchange // Split Bills

Transaction Details Element on Transaction Screen

- Select sender account (which of your accounts) and/or currency in which you send your money, gets determined by the account selection
- Select recipient account and/or currency in which recipient account should receive the money, gets determined by the account selection
- Define Transaction Title (for personal use - tracking history and better traceability of group spendings)
- Display exchange rate, transfer costs and final recipient amount after deducting costs
- Select if this transaction is supposed to be splitted, or not
 - If yes, Popup Window opens and group or single person can be selected (if group selected, you can adjust selection for group members) as transaction member - **Transaction Member Popup Screen**
 - After selection: Percentage of total amount or fixed amount can be entered, or shortcut button splits transaction equally between members. Your portion of transaction gets displayed in the middle of the screen (after selection) - **Transaction Split Popup Screen**
- After finishing the Popup Process, back to Transaction Screen - Transaction Details Element gets updated by the selected Transaction Members

2. Overviews OzFair Account

OzFare Account Overview Screen, OzFare Overview Graph Element
